

# DIAMOND VANTAGE™ CORE BITS

## X-WING

**ZENESIS™** X-Wing Core Bit features a new unique segment design, to create fast drilling speed and precise cutting dry or wet to get the job done effectively and efficiently. Available in a wide range of sizes.

- 10mm segment height
- Unique X-Wing Turbo segment design
- **ZENESIS™** Pattern Diamond Technology
- For both **DRY** and **WET** drilling
- Applications: Masonry, Brick, Concrete, Concrete Block

## GEARED TURBO

Introducing our revolutionary Geared Turbo Core Bit, engineered for unparalleled performance. Its unique gear-shaped turbo segment ensures efficient drilling in hard concrete, granite, brick, reinforced concrete, and concrete block. This premium core bit is designed for speed, making it the fastest core bit in our line up.

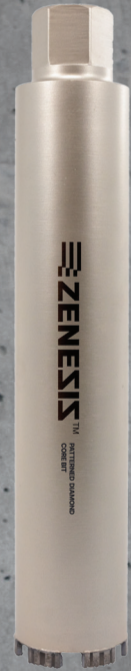

- 11mm segment height
- Unique gear shaped turbo segment
- Applications: Hard Concrete, Granite, Brick, Reinforced Concrete, Concrete Block
