

DIAMOND VANTAGE EQUIPMENT

FOR THE GENERAL CONTRACTOR

FLAT SAW • EARLY ENTRY SAW • MASONRY SAW • TILE SAW

FS200-13G

Diamond Vantage® Walk Behind Saw, FS200-13G is built from the ground up to provide years of reliable cutting. These saws will cut concrete and asphalt with little to no vibration because of their heavy-gauge steel frames, rugged shafts and bearing assemblies.

- Precision machined arbor shafts
- Multiple-belt power transfer system
- Superior rigidity for smooth, clean, straight cuts
- Heavy-Duty 7-gauge steel construction
- Large screw-type depth control locks for consistent cutting depth

DV-GCT-8EE

- **Early Entry Saw** by Gorilla with skid plate assembly
- Optional dust box with excellent dust control
- Folding handle with 4 positions for operation and storage
- 1/4" thick welded steel construction
- Durable powder coated finish
- Front and rear blade pointers
- Preset blade depth stop
- Integrated wrench holders
- Made in USA

TS400

- The new **Diamond Vantage® Tile Saw, TS400** is designed and built for today's bigger, harder and heavier porcelain tiles and pavers.
- 2hp power motor easily handles porcelain and stone up to 2 1/4" thick.
- Extra large cutting capacity, rips 24" x 24" tiles.
- Unique stainless steel horizontal rails and bearings for super precise cutting.
- Adjustable motor positioning to comfortably cut small or large tiles.
- Lightweight, only weighs 65lbs.
- Comes complete with X400 supreme grade porcelain tile blade, rip guide, miter guide, table extension and stand.

MDE350

The **Diamond Vantage® Dry Masonry Saw, MDE350** features a powerful 3HP motor and 14" blade capacity for fast cutting of brick/block and general purpose applications. The saw can also be used wet with our optional wet kit. The powerful dust collector kit (optional) ensures clean cutting, indoors or out.

HAKKEN CORE DRILLS • EIBENSTOCK HAND HELD CORE DRILLS

Diamond Vantage is a US distributor for Hakken®. **Hakken®** offers **the most powerful motor at this class**, with a light weight and compact drill. **Hakken® core drilling machines** are easy to use and highly effective. For contractors and professional use; plumbing, HVAC, fence post, railing installation, utility and engineering core samples among other jobs. Hakken® Brand tools play an active part in construction and engineering all over the world and offer state-of-art technology in drilling.

- High quality made in Japan armature which minimizes repairs
- Roller slide carriage that provides smooth drilling and low friction.
- Industry standard 1 1/4"-7 spindle thread.
- Slip clutch that can be easily adjusted from outside the motor.
- Feed handle that can be placed on either side of the carriage for drilling close to walls and columns.
- Stands we offer: Standard, Standard with Large Vacuum Base, Angled, Swivel
- **DUSTLESS Connector** also available for all sizes

EIBENSTOCK

DRE5

- Overload temperature control and GFCI over current cut-off with optical indicator
- Cut-off carbon brushes - protects the motor
- 3-speed oil bath gearbox - optimal lubrication
- Short compact design
- 100% Aluminum housing
- Integrated level bubble on motor and handle
- Side handle with connection for centering device or water collection
- Wet Use Only

DRE4

- Wet drilling in reinforced concrete, natural stone and asphalt
- Dry drilling in limestone, brick, block and other abrasive materials
- Ideal for plumbing, mechanical and electrical construction, as well as civil engineering and landscape construction
- Garden hose connector
- 3 speed 19.5 AMP hand-held core drill
- Wet or dry diamond core drill
- Water swivel and extraction port built into the spindle
- Easily switchable from hand-held to stand-mounted drilling
- Drill stand adjustable up to 45°
- Includes drill bit connections 5/8"-11 UNC and 1-1/4"-7 UNC

DRE4-S

Our core drill stand is lightweight, yet robust. This stand is available as an anchor base or with optional vacuum base to handle all types of applications. Vacuum sold separately. The combo stand is adjustable up to 45° for angle drilling, and available with mounting brackets and screws.

DUST EXTRACTOR • VACUUMS • EDGE GRINDERS • SLURRY VACUUM

DC3300

To ensure a dust-free floor, **Diamond Vantage® Dust Extractor, DC-3300** is a powerful, highly efficient 2 stage vacuum system that collects all sizes of dust particles and prevents clogging by depositing large grit particles into the first canister and the small to medium grit particles in the main canister.

DC350LM

Introducing our most powerful single-phase dust extractor. Three large, commercial-grade vacuum motors provide 330 CFM and 100" of water lift, which is plenty of power for small to mid-size floor grinders. **Diamond Vantage® DC-350LM** is equipped with a drop down dust collection system that has a separator built in to the bottom. The filters are HEPA. The DC-350LM is portable and easy to maneuver on job site floors. All steel construction with large wheels in back and small locking wheels in front. All accessories are included.

DC150LM

- Portable and powerful single phase HEPA dust collector with two motors.
- Connect directly to equipment for dustless grinding and sanding.
- Provides fast recovery of bulk dry dust and debris found on construction abatement and restoration jobs.
- Complies with all OSHA in table 1 requirements.

EG1000

Diamond Vantage® Edge Floor Grinding Machine, EG-1000 is ergonomically designed and allows the user to grind in a upright position, helping to eliminate fatigue, backaches, and job site injuries. The most efficient edge grinder in the market.

- Operates with 7" hand-held grinder (optional)
- Safer operating
- Easily connects to a vacuum system
- Easy transportation
- 45 lbs frame weight
- Equipped with headlight for operation in dim areas
- Heavy Duty body construction
- Control and apply pressure to the center of the tool with guide handle
- Easy grinding to the edge. Front arm has multiple position pin to get into tight areas.

EG500

Diamond Vantage® Edge Floor Grinding Machine, EG500 is a kneel down edge grinder that is very maneuverable. It's easy one hand operation reduces back ache and shoulder pain. The shroud is designed to not lose suction at any angle even against a wall.

HAND GRINDER

Diamond Vantage® Hand Grinder is a quality hand-held grinder designed specifically for concrete prep and coatings removal. The heavy-duty design of the DV Hand Grinder provides solid performance when grinding for concrete preparation along walls, around protrusions, and those hard-to-access areas, and offers great dependability for removing epoxies and mastics when utilizing appropriate grinding disks and wheels.

DV-GR-K

- 30 & 50 gallon capacities slurry vacuum
- Model available with 4 casters or 2 casters with 2 large pneumatic wheels and a grab handle
- Available with or without drain plug
- 2" headed inlet tube
- Stainless steel screen float enclosure
- 1.5" Steel wand
- Roll cage protection for all components
- Recessed electrical plug, no more cord restraint
- Accessories & other tooling available
